2 February 2015

Dear Parents/Carers of Years 11 and 12

The South West Area Health Service will be attending the College on Monday 18\textsuperscript{th} May, 2015 as part of the Vaccination Catch-up Campaign.

NSW Health is offering one dose of free Measles, Mumps and Rubella (MMR) vaccine to students in Years 11 to 12 who do not have a record of having received two doses of MMR vaccine.

Parents/Carers can check their child’s MMR vaccination history by:

1. Visiting a local Medicare office
2. Contacting Australian Childhood Immunisation Register on 1800 653 809.
3. Emailing acir@medicareaustralia.gov.au

Please make sure that information packs are read thoroughly and consent forms are filled in correctly. (Vaccinations will not be given if the consent forms are not filled in correctly and only originals will be accepted.)

Packages will be distributed today to students via homeroom. All boarding students will receive their packages by mail.

All consent forms are to be returned to Mrs Stewart via Homeroom Teachers or mail by Monday 16\textsuperscript{th} February, 2015. We cannot accept consent forms after this date.

Parents/Carers do not need to return the consent form if their child has already received 2 MMR vaccines before as per the NSW schedule for childhood vaccines.

Thank you

Mrs J Stewart
Administration
