4 November 2013

RE EARLY ADMISSION UNIVERSITY OF WOLLONGONG FOR 2014

Dear Parents/ Students of Year 12 2013

Please see letter below from the University of Wollongong regarding some issues that arose with their 2014 early entry scheme.

Regards,
Catherine Keegan
Director, Teaching and Learning

(Excerpt from Letter)

As you may know, unfortunately the University experienced technical difficulties during the issuing of Early Admissions outcomes.

We are contactinig you to advise that all University of Wollongong Early Admission applicants have been sent the correct official outcome of their application.

After cross-checking offers, UOW is confident with the course offered to each student.

A portion of successful applicants were affected by the error in one of two ways. They either:

1. Received an incorrect offer; or
2. Received an offer outside the advertised timeframe of 8–13 October.

If you or your students have any further questions or concerns about an Early Admission offer, please contact Janet Holen (UOW Assistant National Marketing Manager) on (02) 4221 3249 or call the UOW UniAdvice Team on 1300 367 869.

Once again, the University clearly regrets the problems that this issue has caused to students and their families. There have been a very small number of complaints made directly to the University. We are grateful for the understanding shown by school principals, career advisers, students and parents.

Yours sincerely

Peter Day
